American Chemical Society About ACS Ab

ACS Financial Information

The American Chemical Society (the Society), was founded in 1876. It is a U.S. not-for-profit corporation whose national charter was approved by the U.S. Congress on August 25, 1937, for the purposes of encouraging the advancement of chemistry; promoting research in chemical science and industry; increasing and diffusing chemical knowledge; and promoting scientific interests and inquiry through its meetings, reports, papers, and publications. The Society has more than 158,000 members.

Joint Board-CPC Task Force on Governance Design

ACS National Meeting San Francisco April 2017

As of 3/28/17

We in governance have the challenge and opportunity to ensure that ACS continues to achieve the objects of our Charter and provide value well into the 21st century, as we have done in the 19th and 20th.

Purpose

- Engage stakeholders in identifying opportunities and issues for governance improvement;
- <u>Design</u> a next-generation governance model enabling ACS to advance its objects;
- <u>Develop</u> the case for effective change based on that model, <u>communicate</u> with stakeholders to incorporate their feedback; and
- **Provide** the model and implementation road map to the Board and Council.

Task Force Members

- ACS Board of Directors
- Council Policy Committee
- Committee on Nominations & Elections
- Committee on Committees
- Committee on Constitution & Bylaws
- Committee on Corporation Associates
- Diversity & Inclusion Advisory Board
- Committee on Younger Chemists

Our Charter – Our Foundation

- "Patriotic and National Organization"
 - Signed by FDR, August 25, 1937
 - ACS and a few other groups have a special relationship with the Federal Government.
 - ACS has "special" responsibilities.

Governing Documents

Articles of Incorporation

("Federal Charter" supersedes all rules of incorporation) Constitution

(essential provisions; most difficult to amend)

Bylaws

(somewhat difficult to amend)

Regulations

Rules & Operating Procedures

ACS Objects – Our Foundation

ACS is unified by our charter with the purpose (objects) to encourage in the broadest and most liberal manner the advancement of chemistry in all its branches. ACS accomplishes this by:

- **Promoting research** in chemical science and industry;
- Improving the qualifications and usefulness of chemists through high standards of professional ethics, education, and attainments;
- Increasing and diffusing chemical knowledge; and

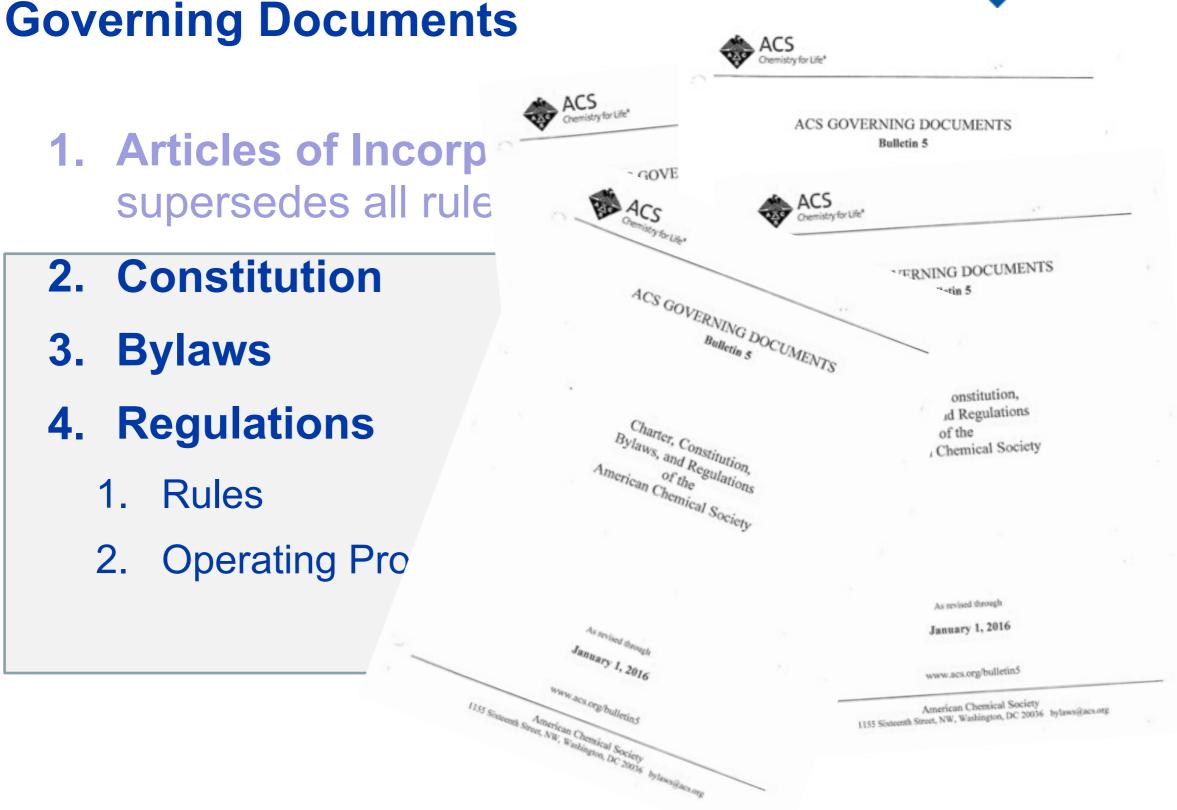

ACS Objects – Our Foundation

- Supporting meetings, professional contacts, reports, papers, discussions, and publications to promote scientific interests and inquiry in order to
 - foster public welfare and education,
 - aid the development of our country's industries, and
 - add to the material prosperity and happiness of our people.

Why Consider Changes?

- Ensure flexibility in governance
- Create an agile Society
- Retain and build upon work and expertise
- Be competitive and continue to grow the ACS

Thank You

ACS BOARD OF DIRECTORS REGULAR SESSION

AS THEY HOST "TED-TYPE TALKS" FEATURING GUEST SPEAKERS:

Joseph M. DeSimone, CEO/Co-founder of Carbon, Inc.; Chancellor's Eminent Professor of Chemistry, UNC-Chapel Hill; and William R. Kenan, Jr. Distinguished Professor of Chemical Engineering at NC State University and of Chemistry at UNC

"Future Fabricated with Light: The Launching of Carbon"

Joseph M. DeSimone has published over 300 scientific articles and has over 150 issued patents in his name with over 80 patents pending. In June 2016, DeSimone was recognized by President Barack Obama with the National Medal of Technology and Innovation. DeSimone is one of less than twenty individuals who have been elected to all three branches of the U.S. National Academies: National Academy of Medicine (2014), National Academy of Sciences (2012) and the National Academy of Engineering (2005).

DeSimone is the co-founder of several companies including Micell Technologies, Bioabsorbable Vascular Solutions, Liquidia Technologies and Carbon. DeSimone received his B.S. in Chemistry from Ursinus College in Collegeville, PA and his Ph.D. in Chemistry from Virginia Tech. He currently resides in Monte Sereno, California.

AND

Anne Milasincic Andrews, Professor of Psychiatry and Chemistry & Biochemistry; Semel Institute for Neuroscience & Human Behavior, Hatos Center for Neuropharmacology, and California NanoSystems Institute; University of California, Los Angeles

"The Brain is More Than a Computer"

nemistry for Life®

Anne Milasincic Andrews leads efforts in basic and translational research on anxiety and depression, and at the nexus of nanoscience and neuroscience. Andrews' interdisciplinary research team focuses on understanding how the serotonin system and particularly, the serotonin transporter, modulate neurotransmission to influence complex behaviors including anxiety, mood, stress responsiveness, and learning and memory.

Andrews has been the recipient of an NIH Fellows Award for Research Excellence, an Eli Lily Outstanding Young Analytical Chemist Award, an American Parkinson's Disease Association Research Award, and a Brain and Behavior Research Foundation Independent Investigator Award. She is a member of the American College of Neuropsychopharmacology, International Society for Serotonin Research vice president, an advisory board member for the International Society for Monitoring Molecules in Neuroscience, and serves as Associate Editor for *ACS Chemical Neuroscience*.

Andrews earned her B.S. in chemistry from the Pennsylvania State University and received her Ph.D. in chemistry as a U.S. Department of Education Fellow working at the National Institute of Mental Health. There, she was also a postdoctoral fellow and senior staff fellow.
